“ *Every time I would come visit my granny she would have a big dish of home made banana pudding. And we always went fishing at the farm. She was a true southern belle Tennessee lady. A heart true as gold. I still wake up and can't believe she is gone. You will always be in my heart till my last breath. I love you granny you'll be greatly missed by me and many others. RIP. MARTY PHILLIPS*

I so remember going fishing at the farm but sometimes you would have to watch out for the Bulls.

Marty I believe she was a big part of your life. I remember her telling me years ago about getting a call from you when you were on the road. Just asking her how are you doing. I believe that ment so much to her.

Rachael yes we did have the bulls. It would be fun to go back to the farm life.

I think it very important to make a point to call your parents. From time to time. Just to say how are you feeling.

It is good for grandkids to have these memories. I even got chased by the bull on the same farm while visiting my grandparents.
