My father was more than the world he was a piece of the universe. His self his wisdom and his knowledge was from the heart and soul . His lifes touches millions because his words resonated .Wisdom runs through all the people he talked to. Trust me his influence was from his spirt and his children and his brothers and sisters and friends I am a part of him that shows . He loved and influence are more than a hand full of people its a generation. the man that he was that im talking about taught a generation of people it spread to touch and teach all of us i am the man I am because of him the things he was and is ,is in me and I get to be me in so many ways . When I say he was the time line of history he was a generation of knowledge that was and is him through his words . He taught me and I get to teach others . Dad was and is a part of all the people in my life because of what he taught me.
