“ In his first year at Dal Kent studied the works of William Blake who wrote in one of his poems:

*And now beside thee, bleating lamb,  
I can lie down and sleep;  
Or think on Him who bore thy name,  
Graze after thee and weep.  
For, washed in life's river,  
My bright mane for ever  
Shall shine like the gold  
As I guard o'er the fold.*

“ I had the pleasure to work with Kent at the Aberdeen Hospital Emerg. in New Glasgow, Nova Scotia for 10 years prior to his departure to the US which was a great loss to the Aberdeen. He was a wonderful person and physician with the greatest respect for Nurses. He could have taught some other physicians a thing or two! He always had a smile and a kind word to say. He was taken too soon. He will be missed.

*Hugs to his family.

“ *RIP Dr Kent Clark*

*The hospital won't be the same without your genuine happy smile, your beautiful voice singing random songs for us, your jokes, the overwhelming love and pride you have for your granddaughter, wife, and the rest of your family, the music you would play (which ALWAYS made for a pleasant work environment), your stories about your life, your delicious grilled cheese sandwiches, your bedside manner and the genuine care you took of your patients (who loved you), and the kindness, concern, and respect you showed toward us nurses.....the list could go on....😭 he was a gentleman who was quite easy to truly respect!!*

*This dear, sweet, genius of a doctor was taken from us way too soon. God must have some very special plans for you Doc!!! You will be greatly missed by those of us who knew and loved you! And I feel lucky to be one who has spent over 5-1/2 years working with you. Those who weren't lucky enough to know you will never know what they missed out on. My heart and prayers go out to your family. 💔💔💔💔🙏🙏🙏*

“ *Our family is remembering Doctor Clark fondly and with heavy hearts. He was the family doctor for us and for my in laws for many years. He was such a smart and knowledgeable doctor and always willing to share and impart his knowledge. And always with a cheerful countenance and heart. He was such an asset to this entire community and especially to our hospital. It will indeed be hard to go on without him. Our prayers go out to his family that they may be comforted by their memories. My condolences to his work family as well as I remember how comforting it was to have him to rely on and go to for help and advice. RIP, Cr. Clark.*

“ *I didn't have the pleasure of working with Dr Clark as long as some of you but I got to work with him when I worked in the ICU at Heritage for about 3 years. He was always smiling. He was always approachable. He was caring and compassionate with his patients and he was good to the nurses. If you needed to talk to him about a patient you didnt have to hesitate about it. I love to read and I was amazed hearing of his reading goals. I am a NICU nurse at heart and remember hearing some of his stories about babies he had delivered. I remember one day a few years ago back at work in the NICU seeing him walk through the doors grinning ear to ear coming to see his granddaughter!! He was so excited. Praying for his family and friends and co-workers.*

We always liked the pictures and videos of her. Now you can read ,sing, and play golf with some of the best. Rest easy.*

I have many fond memories of our years together at S.H.S., especially his knowledge and guidance to those of us who struggled with chemistry. As well, his kindness, care and compassion during serious illness in our family was a special comfort for us. “ I met Dr. Clark many years ago when I began my HR career at the Aberdeen Hospital. He was a wonderful and kind person & physician. He was clearly loved and respected by many; patients, hospital staff & other physicians and colleagues. He was an incredible asset to the profession and a source of comfort and support to the people of Pictou County for many years. I hope you feel a deep sense of pride knowing he selflessly gave so much of himself to others, and that he was respected, loved and appreciated for it. He made a positive difference in so many lives.

Sometimes people do not realize that life as a physician can be very demanding and unpredictable. Commitment and dedication to the profession & to your patients may mean missing precious moments with your own family and maybe missing some important events or holidays. So, in addition to extending my sincere condolences to Dr. Clark's family, I also offer my gratitude & appreciation. Thank you for sharing your husband, father, grandfather and brother with the communities and patients he served. I hope that you can take comfort in all of your good memories to help you through such a difficult time. He will be missed by many.

Sincerely,

When he and Deb came to visit us in California he made a point to visit my father here. My father loved him. Kent when not talking of golf or his travels was always singing or telling jokes. “ I am shocked to hear of Dr Clarks passing. He was my family Dr. when he practiced in Stellarton. He was the one who delivered my only child and it was he who saw issues with my pregnancy and because he was such a caring and amazing doctor I have my girl and now a beautiful granddaughter, without him I would have neither. He gave me a miracle and I never forgot him, nor will I ever. I remember crying when he told me he was leaving his practice and moving. God Bless you Dr Clark. I would like to offer my sincere condolences to his wife and family. He truly was a wonderful, caring man.

“ As a local minister I've seen Dr. Clark work with many families. He had a great Doctor's bedside manner and I've seen him be especially kind to patients who were very poor or had no family nearby. Kindness is the word that fits his care for patients. I regret not getting to know him better, and I regret not expressing to him how much I appreciated his attitude toward those patients under his care. He shall be missed. My heart and sympathy to his family.

“ I have worked with Dr. Clark for at least 7 years now at the hospital. I enjoyed his stories, singing, and willingness to share his knowledge. He was such an intelligent man who was very culturally diverse in his knowledge. I loved to hear him share recipes and sing. He was one of the most approachable doctors I've ever met. I have always had some anxiety when having to call a doctor, but never Dr. Clark. He was always so respectful to both his patients and the medical staff. He will be greatly missed.

“ My best memories of Dr Clark is when me and the other Case Managers were discussing religion and Dr Clark said I don't go to Church often but every day I try to do something that makes God proud of me. I have tried to do the same since then. What a wonderful man he was. Also the last time i saw him he had about 150 pictures of his granddaughter and showed me at least 75! What a proud grandpa!
